John Spivey

jspiv3@mit.edu | (314) 378-6441 | 32 Hereford Street, Boston, MA 02115

EDUCATION

Massachusetts Institute of Technology (MIT) **Cambridge, MA**

Bachelor of Science in Artificial Intelligence and Decision Making, Minor in Math June 2028

GPA: 4.9/5.0

Relevant Coursework: Programming in Python, Machine Learning, Algorithms, Probability and Random Variables, Linear Algebra, Macroeconomics, Microeconomics, Managerial Finance, Corporate Accounting

The American College of Greece (Deree) **Athens, Greece**

Study Abroad Heritage Program July 2024

Relevant Coursework: Greek Language and Culture

EXPERIENCE

MIT CSAIL Medical Vision Group **Cambridge, MA**

Undergraduate Researcher January 2026 - Present

- Design and propose 3D segmentation techniques that can handle corruption caused by artifacts and motion to better quantify volumetric measures in neonatal hydrocephalus patients with ventricular shunts
- Building a segmentation pipeline by first testing and fine tuning existing models (dHCP Structural Pipeline and VentriclesCNN) to extract ventricular and brain volumes for 3D brain reconstructions from corrupted MRIs
- Working with mentors and peers to optimize models and authoring a paper describing our findings

Lyla (MIT Sandbox Funded) **Cambridge, MA**

Founder January 2026 - Present

- Developing and designing a HIPAA-compliant iOS platform that leverages on-device machine learning to model health sensor data in athletes with Type 1 Diabetes, enabling real time analysis of multiple data streams
- Integrating from existing health sensors to obtain glucose, activity, and sleep data to construct individualized profiles

Thinkstruct **Cambridge, MA**

Software Engineering Intern January 2026 – February 2026

- Researched, designed, and implemented a chemical structure retrieval pipeline for related chemicals within patent literature
- Utilized scaffold decompositions and embedding based similarity scoring techniques to initially rank candidate structures over a curated dataset of nearly 60 million structures, then reranked the target batch with a novel embeddings approach
- Presented our pipeline, benchmarks, and potential applications to both technical and non-technical audiences

Link Ventures **Cambridge, MA**

Software Engineering Intern August 2025 – December 2025

- Collaborated with three engineers to build a full stack MVP at creating AI solutions for financial advisors
- Researched markets and implemented live transcription, meeting summaries, and automatic email generation
- Worked with a team of advisors to improve our go-to-market strategy and solidify our key differentiators

Premier Pitching Performance **Saint Louis, MO**

Data Science Intern June 2025 – August 2025

- Collaborated with coaches and athletes to give actionable insights on hundreds of biomechanical, force production, and pitch quality data points to build personalized athletic and baseball-specific training programs
- Built dashboards to unify and display all data points, created weekly data analysis and reporting pipeline for our in-house summer league, integrated APIs and cleaned large .txt files to prep for analyses
- Organized work from other interns, instructed and led in house data analysis team on several projects

LEADERSHIP

MIT Varsity Baseball **Cambridge, MA**

Varsity Athlete September 2024 - Present

- Train approximately 20 hours per week for competition as an outfielder on MIT's Division III team
- 2025 NEWMAC Rookie of the Year, All Conference First Team
- 2025 ABCA/Rawlings NCAA DIII All Region Third Team

MIT Capital Partners **Cambridge, MA**

Member September 2025 - Present

- Helped to organize internal weekly meetings and to build a network of student entrepreneurs and builders on campus
- Connected with sponsorships and partners to help plan joint events among multiple student-led entrepreneurial clubs

SKILLS & INTERESTS

Skills: Greek (intermediate), Spanish (intermediate), Python (+ Pandas), R, Data Analysis, Market Analysis, SQL, OpenCV, Artificial Intelligence, TensorFlow, Docker, Scikit-Learn, NumPy, FastAPI, REST APIs, Microsoft PowerPoint

Involvement/Interests: Chi Phi Fraternity (Risk Manager), Martin Trust Center Student Board, Camp Kesem at MIT, MIT Little Beavers, Music (guitar), Performance Development, Greek Dance, MLB, Classical Languages
